Good Samaritan College visit to PLLC – Student Reflection

My experience with Pure Land Learning College was very interesting. I learned many interesting things about the Buddhist faith. I was shown many interesting traditions and history. Our guide was very nice and very informative as well as funny and explained everything very well. They showed us where they pray, where they grow their vegetables and many interesting artworks such as an artwork of hell and an artwork of the future map of the world.

They showed us statues which had some interesting histories and were explained very well. They showed much generosity during the morning tea they provided and gave all of us some very interesting books. In conclusion, this visit was very informative, and I even learned some new outlooks on life as well as some very interesting facts about the Buddhist faith that I found very interesting. Overall, it was a very peaceful visit.
